What are the top 5 reasons your ideal customer will visit your website?
eg: research product information, get contact details, ask questions about services, pricing

Design Concept

How do you want people to feel when they interact with your brand? Safe and secure, edgy and excited, exclusive and cool, like they belong?

Do your competitors have websites? If so, list them here (so we can make sure yours is better):

Tell us about your competitors. Who else is competing for the attention of your ideal customer and what are they doing that you think is working?

Are there any other websites in particular that you like the design of? Why?

What Does Success Look Like?

If we were to be celebrating success in 12 months time, what would that have to look like? How many website visitors? How many leads? How many sales? Be as descriptive as you possibly can.
